

Woodwork/Art Permission slip

Parent's name:..... Date.....

Child's name:.....

By signing this document I understand there is a chance my child could hurt themselves while using a tool in either a woodwork or art session.

I give my permission for my child to use these tools: scissors, hot glue gun, pyrography pen, saw, drill & all other tools which are available to use.

I understand my child will always be closely monitored. Due to other children in the class they will not always be attended to whilst using tools. I take full responsibility for any injury which may occur with no blame on Spiritus or the facilitator unless it is very obvious the accident is due to negligence.

A safety talk is always given to young people on how to handle tools to avoid injury. Please make your child aware these are tools which can cause great harm and they need to use them with great respect.
